

September 2020 CUMC Preschool What's Happening

Here's What's Happening in September

Welcome

I would like to take just a second to say Welcome to Culpeper UMC Preschool! I am so excited for your little one to either be returning this year or are a new student to our Awesome Preschool Program! It is our priority to make a fun and rewarding introductory experience into the next phase of their lives ~ school! We want to teach them socialization and structure in a way that sets a strong foundation for a future of loving and enjoying their schooling experience; as they will always remember how it all started at CUMC Preschool!

Miss Lohr & Mrs Gailliot have so many fun activities planned for this month. From learning our friends and classroom routines to celebrating Fall and learning all about "Apples All Around" and "Me & My Family!"

Change of Clothes

Just a reminder ~ please remember to bring in a change of clothing for your child in a Ziploc bag with their name on the bag. Please include pants, shirt, socks and underwear. These will be switched out at the change of the season and will be returned at the end of the school year! We want to be prepared for any accidents!

Preschool Website

Our preschool webpage within the church's website will be updated each month with the monthly calendars and newsletters. I will also post any important upcoming events! Please check us out at ~ www.culpeperumc.org/preschool
You may also pay tuition directly from this site. Just click Pay Tuition Online from the preschool webpage.

HiMama & Remind

HiMama is our preschool/childcare software we use in order to keep parents updated with all of our daily activities in a real time format. As the year progresses, you will see additional features being added.

Most email communications will be going through HiMama. All Calendars and information can be found under calendars and menus within the HiMama ap. You can also track your billing and payments on this ap.

We will continue to use the REMIND ap for all texting reminders.

Please accept invitations from both software applications, as these will be crucial for communication purposes.

If you have any questions regarding the use of HiMama or Remind aps, please feel free to ask me.
